THULEMA

Thulema creates 21st century furniture for 21st century offices and public spaces. We follow and pay forward the high level of quality we have set for ourselves both when working with our clients and when making assembling and installing our furniture.

KUMA

KUMA is created through combining the soft and the strong, real respect and welcoming openness. There's meaning to the content, there's status mingled with warmth. And there are the intricate details and the splash of the unexpected that fully tie it together.

designer
iseasi

A handwritten signature in black ink, consisting of stylized, overlapping letters that appear to read 'MPRN'.

CREATED FOR MANAGEMENT

Kuma is made for executives. Clear and simple at a first glance, it keeps unexpected possibilities at a finger's touch and hides an array of elegant details, creating a more valuable and enjoyable working environment as the days go by. Standing out but not feeling too harsh – Kuma is the perfect option for the modern executive.

PERFECT WORKING ENVIRONMENT

Kuma needs an open space around it. In addition to the desk, the range also includes an intricate system of cabinets and shelves.

A perfect set of cabinets is compiled of various modules to suit your needs. In addition to file and document storage, Kuma also offers unique solutions for wardrobes - bars and intriguing mirror units.

A modern office workstation is shown in a minimalist setting. On the left, a low wooden cabinet with three drawers sits on a light-colored floor. In the center, a large whiteboard is mounted on a wall with a dark purple accent band. To the right, a wooden desk with a light-colored top and a dark frame is partially visible, with a black office chair behind it. The scene is lit with soft, natural light, creating a clean and professional atmosphere.

THE PLACE WHERE DECISIONS ARE MADE

Kuma lets you choose between different desks. There's a traditional and stern-looking one that rests on side panels and comes with a matte glass screen, and there's a lighter, modern solution that rests on four legs and comes with a felt modesty screen. The low drawer cabinet next to the desk can be used as an additional support surface. The cabinet itself hides the sockets supplying your entire workstation with power.

10

BIG AND SMALL MEETINGS

The majority of an executive's workday is made up of various meetings and conversations. Kuma offers different solutions for your formal and informal meetings – whether you are sitting on a comfortable chair or on a sofa.

DESKS

CONFERENCE TABLES

COFFEE TABLES

CABLE DUCT

MODULES

The Kuma range is made up of two desks, two coffee tables and an eight-people conference table with a cable duct for presentation equipment.

Kuma cabinets are built by following your exact needs and compiled from single modules. Their doors come with or without glass, and you can choose either a row of cabinets with an open shelf at the end, or a row ending with a wardrobe that comes with a concealed mirror. A low cabinet of drawers can also be placed next to the desk.

MATERIALS

Kuma's material palette includes dark walnut, white silky surfaces, natural felt and cool matte glass.
