THULEMA

Thulema creates 21st century furniture for 21st century offices and public spaces. We follow and pay forward the high level of quality we have set for ourselves both when working with our clients and when making assembling and installing our furniture.

MORE AND MOI

More and Moi are Thulema's two central storage ranges. Like all Thulema products, these storage ranges have also been created for cross-usage. Whilst More is perfect for a more refined environment or as a practical room divider in an open space, Moi takes a modest but highly stylish place in the back office where it carries greater functional weight. Everything fits in these cabinets, so the room around you will look nice and tidy.

MORE

The exclusive More range consists of a selection of cabinets with either sliding doors or roller shutters. The low modules with doors can be functionally accessorised by placing additional shelves on top - creating a perfect solution for things you need to keep within arm's reach or hidden away. The sliding doors or roller shutters are perfect when used next to workstations, as opening the doors doesn't require any space.

K63L A4

More cabinets are 1200 mm wide and come in four heights: 930, 1310, 1700, 2100 mm. Together, the narrow shelves and the steel frame of the feet create a remarkably strong construction able to take on a lot of weight.

The low cabinets also come with wheels, making them highly suitable for a dynamic and flexible working environment. The elegantly modest finish of the cabinets makes them excellent room dividers in open spaces.

In addition, the range includes a wardrobe, a wall shelf and a display cabinet with glass doors.

MOI

The Moi cabinet range offers an efficient solution for creating storage and archive space in various working environments. Besides the 800 mm wide cabinets, the range also includes a very convenient and practical 1600 mm wide cabinet with sliding doors. The cabinets are two, three, four or five modules high and can be combined with full or partial sets of doors. In addition to hinged doors, the Moi range also offers roller-shutter doors. The cabinets come either with feet or with a low base. The Moi pull-out cabinet is suitable for use in an open space, next to a workstation, guaranteeing that everything you need is close by. The range also includes a wall shelf.
