## Installation instruction - Mezzo floor screen

Start by mounting on all four wheels on the stand. When all the wheels are in place so raise up the stands and on the stay and tighten it with the supplied screws.

Now it's time to lift the body to the frame. The body has a top and bottom, the bottom has two holes in it where the frame should be mounted. Lift the body since it handles to be in place.

On each side of the frame sits two Cartridges that handles be mounted. Push the handles and lock them with the small bunch of screws provided. Once this is done, the assembly is complete.
