THE SOFA

Design: Samuli Naamanka

The Lilja was designed in cooperation with Finnish designer Samuli Naamanka. Its harmony and timelessness make it a true pearl for public space. Warm and friendly solid wood and elegant lines make up a pleasing piece of furniture that reflects the Nordic attitude to style and quality. One of the most important qualities of the Lilja is that it is modular. You can play around and create versatile combinations for rooms with different functions, as well as making the sofa even more personal by selecting the colours and armrests your prefer. The warmth and ergonomic design of this sofa plead with you to take a seat. It is truly comfortable.
