See toode on loodud:

- Ootealadele
- Kitsastesse oludesse
- Kohvikutesse ja restoranidesse

SOFTREND
ÕIGE DIIVAN

Disain: Argo Tamm

Meeter on modulaarne diivanilahendus kõikjale avalikku ruumi: restoranidesse, ootealadele, kontoritesse. Diivanilahenduse saab koostada kolme erineva kõrgusega moodulitest, mille laiuse saab valida vahemikus 62-150 cm. Isikupära lisavad õhulise disainiga metalljalad. Meetrilahendused sobivad meeskonna- või individuaalseks tööks, neist saab moodustada kombinatsioone erinevate töörühmade jaoks või luua ruumi eraldavaid üksuseid.
