

# Sofi

Sofa & pouf system

This product has been created for:

- Small offices
- Waiting areas
- Use in larger offices (several at a time)

**Design: Janno Nõu**  
Iseasi

The Sofi series was designed to make people in offices feel more **at home**. In terms of style it's more fun than your average office furniture, and more slimline and approachable, too. The use of legs (rather than a base) produces a lightness that's both literal and figurative, and invites people to rearrange the poufs around the room to suit themselves. The Sofi series is well-suited to smaller offices, as well as to larger office spaces in greater numbers.
