# BESIDE / TROLLEY

Beside is a shelving unit on wheels, an office trolley-system based on modules to perform and perfect every need a modern workspace has. On its main body structure a variety of accessories can be attached and hung, such as shelves, hooks, drawers, pen-organizers, and magazine-racks. By attaching and organizing shelves in different configurations many different needs can be met.

The separate units can be attached to each other, forming a sideboard, a bench, or a wider storage solution on wheels. And on its own, Beside is the perfect helper and storage unit for the modern office when one needs to move around and readjust the space.

Beside comes in two different heights and a combination of wood and metal, lacquered in a variety of colors. The perfect way to customize and personalize parts of the office space.

## DESIGN

Studio Nooi

## MATERIALS

The frame is powder coated steel made in Sweden, consists of 70% recycled materials. The powder coating provides both environmental and quality benefits as no solvents need to be added and the amount of waste is minimum.

The box/drawers and shelves are made of FCS labeled oak veneer.

Wooden details in Oak veneer.
