MIZETTO

PELICAN / PEDAL BIN

Pelican is a practical must-have turned into a decorative object and eye-catcher.

This pedal bin with touchless interaction is a series of recycle urns for the modern office that doesn't compromise with taste nor the environment.

Pelican comes in two sizes and a variety of colors. Its minimalistic design and modular shape work both as a solitary piece, as well as combined in a group of two or more. Placed back-to-back they become an oval shape and placed in a row against a wall they form a cloud-like organic shape. Its refined character makes the bin suitable both for the domestic environment as well as a larger recycling station in public spaces and offices.

DESIGN
STUDIO NOOI

MATERIALS
The bin consist of 25% recycled material with the choice of seven colors: Signal White, Forest Green, Dusty Blue, Copper Brown, Black, Latte or Iris Blue.

The metal is powder coated which provides both environmental and quality benefits as no solvents need to be added and the amount of waste is a minimum.

VOLUME
Pelican M = 60 L
Pelican L = 88 L

MADE IN SWEDEN

MEASUREMENTS

PELICAN
800 x 340
31,5' x 13,4'

Item no. 261xx

STANDARD COLOURS

01 - Signal White

05 - Forest Green

08 - Dusty Blue

09 - Copper Brown

10 - Black

11 - Latte

12 - Iris Blue

“The necessity of designing a pedal bin for Mizetto has developed during the years of the Covid19 pandemic, which has left all of us reluctant to touch handles and surfaces in public spaces, especially in relation to waste bins.”
